COTTON CROP

of September-Report Compiled

Correspondence of Hill. Fontaine & Co. Very Interesting Reading for Farmers and Merchants.

From the correspondence of Messrs. Hill, Fontaine & Co., cotton factors and wholesale grocers at 296 and 298 Front street, the following cotton crop report for the Memphis district, which embraces West Tennessee, North Mississippi, North Arkansas and North Alabama, is compiled. This report shows the condition of piled. This report shows the condition of the crop up to the 1st of October, as gathered from 304 letters of inquiry sent out September 28th. The weather during the month was favorable to picking excepting Alabama and portions of and Tennessee, where excessive rains fell and added to the injury that had already been sustained by the growing crop. The damage reported to the plant which was indicated in our report of last month comes fully corroborated, and has been universal throughout the district. The principal cause was drouth which pro-

universal throughout the district. The principal cause was drouth, which produced heavy shedding. Picking is progressing rapidly in all the four States, and fully 15 per cent. of the crop had been gathered up to the close of September. The prospective yield for the district will not exceed that of last year only so far as the increase the district will not exceed
that of last year only so far as the increase
of acreage planted, which was 4½ per cent.
Arkansas reports a decreased yield of 7½
per cent. West Tennessee a decrease of
9 per cent. Mississippi an increase of 9 per
cent. and Alabama an increase of 8 per
cent. An early frost, however, would do some damage, and make the above esti mate subject to further correction.

"I think it was a very useless display of a very ugly spirit," said a solid squire.
"The grand jury spoke in very complimentary terms of the Taxing District government, and in a very discouraging way of this court. There was no member of the Taxing District government on the grand jury, and what it had to say in compliment of the city was entirely gratuitous. THE MONCRIEF MATTER. In the matter of the power of the super-intendent of the Work-House to discharge Superintendent Moncrief, County Attor-ney Jordau responded as follows: "County Courts are authorized under the acts of the Legislature of 1875, chapter 83, carried into the new code at section 6283, to ried into the new code at section 6283, to
employ overseers necessary to insure the
safe-keeping of prisoners and faithfol performance of their labor, paying such compensation as they may think just. This
section provides that the superintendent
shall have the general direction and control of such overseers, and gives the
County Court the power, for sufficient
cause, to discharge such overseers thus
employed. I am of the opinion that during vacation or interim between the sessions of this court the superintendent has sions of this court the superintendent has to be confirmed or disaffirmed by the court when in session. If the cause of the complaint occurs during the session of

the court it alone has the power to dis-charge, as provided by said section, but if the court is not in session when the cause of complaint arises some one must act for county, and I am satisfied it was the uperintendent act 10. proval, stating the grounds upon which said action is based.
